THE NEW BMW 3 SERIES SALOON.
THE NEW BMW 3 SERIES TOURING.
SHEER DRIVING PLEASURE. PEERLESS.

THE MODELS SHOWN.

04 BMW 3 SERIES SALOON 340i WITH SPORT LINE:
BMW TwinPower Turbo 6-cylinder in-line petrol engine, 240 kW (326 hp), 19" light alloy wheels Star-spoke style 407, Mediterranean Blue metallic exterior colour, seats with Dakota leather upholstery in Oyster with Oyster dark highlights, interior trim finishers in Aluminium, finely brushed lengthwise, with highlight trim finishers in Black high-gloss.

BMW 3 SERIES TOURING 330d WITH LUXURY LINE:
BMW TwinPower Turbo 6-cylinder in-line diesel engine, 190 kW (258 hp), 18" light alloy wheels V-spoke style 656, Platinum Silver metallic exterior colour, seats with Dakota leather upholstery in Saddle Brown with Brown highlights, Ash Grain fine-wood trim with metal inlay and highlight trim finishers in Pearl Chrome.

BMW 3 SERIES SALOON 330e WITH LUXURY LINE:
BMW TwinPower Turbo 4-cylinder petrol engine and electric motor with a system output of 185 kW (252 hp), 18" light alloy wheels Turbine style 415, Glacier Silver metallic exterior colour, seats with Dakota leather upholstery in Oyster with Oyster dark highlights, Fineline Anthracite fine-wood trim with highlight trim finishers in Pearl Chrome.

For further information on fuel consumption and CO2 emissions see pages 55/55 and 56/57 or visit the BMW partner.

58 BMW SERVICE:
BMW Service, BMW Financial Services and the BMW brand experience.
Joy has many faces. The most exciting one is reflected in the new BMW 3 Series and its breathtakingly sporting design. Clever functionality that not only makes life easier, but creates room for unlimited enjoyment. Driving fun that outlasts every straight, bend, trip through town or long-weekend getaway. Wherever you go – the destination is joy. Let yourself be carried away. Discover the new BMW 3 Series!
READY, SET, JOY!

40 years of sheer driving pleasure. The long bonnet, wide stance and short overhangs of the new BMW 3 Series Saloon spell it out for all to see: here comes a true performer. The driving experience is convincing from the get-go: at 240 kW (326 hp), the TwinPower Turbo engine in the BMW 340i makes this athlete sprint from 0 to 100 km/h in only 5.1 seconds, while the 340i xDrive takes just 4.9 seconds. As the acceleration pushes you into your seat, you will come to realise: in the new BMW 3 Series, euphoria is only the beginning.
THE MOST BEAUTIFUL LINES ARE REFLECTED IN YOUR FACE.

Euphoria from the start. All aspects of the new BMW 3 Series are designed to turn every drive into a special event. Especially luxurious due to a high standard of materials and workmanship. Especially elegant, with the optional ambient lighting providing a tasteful illumination of the cabin. And especially comfortable, with the slightly angled centre console and driver assistance systems like the optional BMW Head-Up Display making every drive not just more enjoyable but also safer. Once you’ve sat down behind the wheel, you won’t want to leave.
Functional dynamism. The new BMW 3 Series Touring confidently demonstrates how sporting everyday usability can be – when it’s designed by BMW. The front, sides and rear combine to create a harmonious whole, with classic Touring proportions and an imposingly broad stance. The new LED taillights and the optional round twin headlights as well as the redesigned front and rear aprons emphasise this effect. The result not only looks great, it also ensures outstanding road illumination at all times of the day and night.
THE PERFECT MEASUREMENT: 40/20/40.

Sometimes a small movement creates a surprising amount of space. With its optional comfort access function enabling no-touch opening and closing, the BMW 3 Series Touring tailgate makes it easy to rise to big challenges. The new Touring simply adapts to your individual requirements. One example is the generously-sized cabin with a 40/20/40-split rear seat backrest as well as a separately opening rear window to quickly stow away smaller items.
Three times an athlete. Whether as a Touring, Saloon or plug-in hybrid: the new BMW 3 Series does not compromise and is a winner in every discipline. It effortlessly combines athleticism, efficiency and lifestyle with clever functionality and a design that signals a forward urge and a dynamic spirit, even when the car is at rest. But it shows its true talent on the road, turning every drive into an experience of sheer bliss. Ready when you are: the new BMW 3 Series.
EVERY MOVEMENT HAS A DRIVE. THIS ONE HAS TWO.

Compelling dynamism and impressive efficiency. The new BMW 3 Series Saloon with eDrive enables you to experience both. The electric motor produces an output of 80 kW and covers up to 35 km at up to 120 km/h without generating local emissions. In tandem with the 135 kW of the internal combustion engine, it takes just 6.3 seconds to accelerate from 0 to 100 km/h – providing a fun-filled driving experience with very little fuel consumption.

The BMW 3 Series Saloon with eDrive is due to become available in the first quarter of 2016. Preliminary figures pending official confirmation.
INNOVATION AND TECHNOLOGY.

BMW TWIN POWER TURBO ENGINES: At the heart of BMW EfficientDynamics.

LESS EMISSIONS. MORE DRIVING PLEASURE.

BMW TwinPower Turbo engines.

The quoted performance, fuel consumption and CO₂ emissions figures are for vehicles with standard transmission.

1) Fuel consumption is dependent on the selected trim line and optional equipment. For further information on fuel consumption and CO₂ emissions, see pages 541 and 563 or consult your BMW partner.

2) Electrically driven.

3) Torque for xDrive with manual transmission and Stephane transmission: 270 Nm.

4) Due to tolerable limits of xDrive, all will stay within declared limits, that also without official confirmation.

The quoted performance, fuel consumption and CO₂ emissions figures are for vehicles with standard transmission.

Values in [ ] for vehicles with Stephane transmission.
BMW EfficientDynamics
Less emissions. More driving pleasure.

Whether the goal is maximum performance or minimum fuel consumption – for BMW, the focus is always on delivering quintessential BMW driving pleasure. BMW EfficientDynamics is the strategy developed by BMW to minimise fuel consumption and CO₂ emissions while simultaneously increasing dynamics and driving pleasure. It is a comprehensive technology package that encompasses the engine, energy management and the vehicle concept – and is standard in every BMW.

SPORTY AND EFFICIENT: THE 8-SPEED STEPTRONIC TRANSMISSION.
The optional 8-speed Steptronic transmission ensures smoother gear shifts and greater driving comfort, thanks to fast engine speed transitions and short shift times. It unites outstanding comfort with impressive dynamics and increased fuel-efficiency.

THE BMW 320d EFFICIENT DYNAMICS EDITION.
The BMW 320d EfficientDynamics Edition with BMW TwinPower Turbo 2.0-litre 4-cylinder diesel engine delivers impressively on maximum fuel efficiency and good driving performance. With a power output of 190 kW (258 hp), it accelerates to 100 km/h in 7.9 seconds and has a fuel consumption of only 3.9 – 4.3 l/100 km. CO₂ emissions are just 102 – 113 g/km and only 99 – 109 g/km in conjunction with the optional 8-speed Steptronic transmission.

ENGINE.
BMW TwinPower Turbo technology gives the new engines in the BMW EfficientDynamics engine range significantly more agile power delivery, as well as more spontaneous responsiveness even at low engine speeds. At the same time, they are efficient, with low emissions, low fuel consumption, great dynamics and increased driving pleasure.

BMW eDrive technology combines the best of both worlds in a plug-in hybrid model: purely electric, locally emission-free driving, e.g. in urban areas, along with a dynamic driving performance and a great range. Intelligent energy management controls interactions between the electric motor and the combustion engine, deploying both with impressive efficiency.

VEHICLE CONCEPT.
Intelligent lightweight construction at BMW means using the right material for the right parts of the vehicle. For every single component, the most suitable material is selected. This philosophy, also known as BMW EfficientLightweight, is now integral to BMW EfficientDynamics and applied to every BMW.

Thanks to targeted aerodynamic measures, every BMW boasts excellent air resistance figures. This has a positive impact on efficiency and driving stability, and reduces the level of noise in the interior. These features include the flat undercarriage cover and the Air Curtain in the front apron.

ENERGY MANAGEMENT.
The ECO PRO mode helps drivers reduce their fuel consumption by up to 20 per cent¹, depending on their driving style. The “coasting” function (only with Steptronic transmission), the Route-ahead assistant (only with Navigation system Professional) and ECO PRO route (in combination with Navigation system Professional or Business) make it possible to save a further five per cent.

The Automatic Start/Stop function switches off the engine when the vehicle comes to a temporary standstill (e.g. at traffic lights or in a traffic jam) to further reduce overall fuel consumption. When the driver presses down on the clutch (manual transmission) or takes their foot off the brake (Steptronic transmission), the engine automatically starts up again in a fraction of a second.

The optional Servotronic² adjusts the power steering to suit the current speed and ensures a direct and precise steering response even at high speeds. It also ensures supreme comfort by minimising the physical effort required for steering, as well as maximising agility when parking, manoeuvring or navigating narrow or twisting roads.

¹ Determined in an internal BMW fuel consumption study.
² Standard on 320d, 320d xDrive, 420d, 420d xDrive, 325d, 330d, 330d xDrive and 330e iPerformance.
BMW ConnectedDrive
So connected, you’re free.

Our world is becoming more closely connected every day. And for BMW drivers it goes without saying that they can request information, communicate via telephone or email and always be up to date – all while they’re on the go. The BMW ConnectedDrive® concept encompasses all the services and innovative technologies that link BMW vehicles and their passengers to the outside world and surrounding traffic.

BMW ConnectedDrive with its intelligent services and assistance systems is ready with all the right equipment. BMW ConnectedDrive Services & Apps offer more freedom by providing versatile connections between the driver, vehicle and the outside world. BMW ConnectedDrive Driver Assistance systems make driving a BMW safer and more comfortable. And intelligent systems make life easy for the driver and minimise the dangers of traffic.

The BMW ConnectedDrive Services* option provides the driver with a wide range of information, entertainment and service features on the road. It also includes BMW Online, which enables you to access current, localised information such as weather, news and an online search powered by Google™, as well as various office functions. You can also combine individual services and features such as webcams, fuel price info, parking information, travel and hotel guides in the “Applications” menu.

The secure and comfortable use of selected smartphone applications is also included for an unlimited period of time. The ConnectedDrive Services option also includes access to the BMW ConnectedDrive Store, in which services and apps can be booked, extended and selected according to individual needs, at any time and from any place. The ConnectedDrive Services option also offers much more to make each journey in a BMW into a real experience.

* May not be available in all countries. Please consult your BMW partner.
* For further information on BMW ConnectedDrive, please visit www.bmw.com/connecteddrive

The optional full-colour BMW Head-Up Display® projects information relevant to the journey directly into the driver’s field of vision, thereby allowing them to fully concentrate on driving. The display includes information such as the current speed, navigation directions, Speed Limit Info incl. no-overtaking indicator, along with telephone and entertainment lists.

The optional Driving Assistant® combines the Lane Departure Warning and Approach control warning systems. When travelling at speeds between 10 and 60 km/h, the Approach control and Person warning with light city braking function issues a warning if there is a risk of collision with vehicles or pedestrians, and brakes the vehicle in the event of an emergency. When going above approx. 70 km/h, the Lane Departure Warning draws the driver’s attention to an unintentional lane change by means of slight vibrations in the steering wheel.

The Intelligent emergency call* included as standard, automatically establishes a connection with the nearest rescue coordination centre through the BMW call centre whenever needed – without the use of a mobile phone. It transmits information regarding the vehicle’s current location and the severity of the accident. The Intelligent emergency call can also be triggered manually in case other road users require help, for example.

* This function can be limited by darkness and fog.
Chassis.
A solid foundation for superior driving dynamics.

An ideal axle load distribution of 50:50 helps ensure great directional stability, agile handling and a precise steering response. A lower centre of gravity, along with a long wheelbase with short overhangs, generates optimal conditions for these positive driving characteristics.

The intelligent BMW xDrive all-wheel drive system adapts perfectly to even the most challenging road surface conditions, always offering outstanding traction. With xDrive and Dynamic Stability Control (DSC), the vehicle remains directionally stable and on track. To counteract any risk of oversteer or understeer, xDrive proactively distributes drive power between the two axles, using input from the DSC sensors. This means that fewer DSC interventions are necessary when road surface conditions are poor. BMW xDrive combines the advantages of all-wheel drive — traction, directional stability and safety — with classic BMW agility, for even more driving pleasure.

The Standard suspension offers a high level of precision, agility and suspension comfort. This is made possible by a double-joint spring-strut front axle made of aluminium and a sophisticated five-arm rear axle, along with elaborate tuning.

The optional Adaptive suspension electronically adjusts the suspension to suit the road conditions and driving situation at all times. The driver can also adjust the suspension characteristics via the Driving Experience Control to enable their preferred driving style at the time — from comfortable to extremely athletic with markedly agile handling.

The optional variable sport steering with Servotronic creates a direct and agile steering response and ensures less physical effort is required to turn the wheel. It reacts to the angle of the steering wheel with varying steering ratios. This improves handling when using a sporty driving style as well as comfort during parking and turning.

The hallmark BMW Rear-wheel drive ensures excellent unimpaired steering precision due to the fact that the front axle is not affected by any form of torque steer with this type of drive. Furthermore, the dynamic axle load distribution associated with a Rear-wheel drive ensures great traction when accelerating from a standstill.

Safety.
Unparalleled safety with the latest BMW technology.

- Active Protection warns the driver if it detects signs of tiredness, intervenes in critical situations and brakes the car to a standstill after an accident.
- Airbags for the driver and front passenger as well as head and side airbags provide strategic protection. The extremely rigid passenger cell provides the best possible passive safety in the event of a front, side or rear collision.
- The low-set Adaptive suspension with variable damper control allows the driver to choose between comfortable and dynamic suspension settings. This continuous adaptation of the suspension to the driving situation also increases safety.
- The Dynamic Stability Control (DSC) recognises any risk of skidding and stabilises the vehicle.
- Adaptive LED headlights provide significantly better illumination and visibility than conventional systems in every driving situation.
- Active cruise control with Stop&Go function maintains a preselected speed, as well as the distance to the driver ahead.

1 Low-set suspension not available in combination with xDrive.
2 Only available in combination with Steptronic transmission.
INDIVIDUALITY AND ADAPTABILITY.

EQUIPMENT: BMW Lines and M Sport package, BMW Saloon with eDrive, BMW Individual, equipment highlights, wheels and tyres and Original BMW Accessories.

COLOURS: Exterior and interior colours.

TECHNICAL DATA: Weight, engine, transmission, performance, fuel consumption, wheels and dimensioned drawings.

BMW SERVICE: BMW Service, BMW Financial Services and the BMW brand experience.
The new BMW 3 Series is a perfect companion that includes a wide range of equipment features as standard. Here we present a selection of these standard features.

**Base model equipment:**
- BMW kidney grille featuring eleven exclusively designed slats in Black
- 18" steel wheels with full-size wheel covers, alternatively 16" light alloy wheels V-spoke style 305 or 17" light alloy wheels V-spoke style 305.
- Exterior mirror caps in body colour
- Trim on the side window frames, window recess finishers, B-pillar and mirror base in Black matt
- Tailgate trim in Chrome
- Halogen fog lights with LED daytime running lights
- LED rear lights with indicators and brake lights in LED technology
- Seats in Move cloth
- Leather steering wheel incl. multifunction
- Air conditioning and radio control unit with Pearl Chrome detailing
- Interior trim finishers in Satin Silver matt
- Centre console with surface in Black high-gloss
- Armrest front

The standard Move cloth upholstery in Anthracite combined with Satin Silver matt interior trim. The BMW 3 Series includes numerous storage compartments as standard, such as door compartments big enough to hold 1.5-litre bottles.

The standard leather steering wheel with multifunction buttons has a pleasant feel, and high-class workmanship creates a premium ambience in the interior.

18" light alloy wheels V-spoke style 305, 17" J x 7 with 225/50 R 17 tyres.
The Sport leather steering wheel has an exceptionally pleasant feel. Dakota leather upholstery in Saddle Brown and the optional Ash Grain fine-wood trim with metal inlay and Pearl Chrome highlight trim finisher.

The Luxury Line can be perfectly complemented with equipment from the BMW Individual range.

**Luxury Line interior equipment:**
- Door sill finishers in aluminium, with BMW lettering
- Seats in Dakota leather Saddle Brown with extended trims in Brown and Brown highlights; additional upholstery options available
- Sport leather steering wheel
- Car key with chrome detailing
- Air conditioning and radio control unit with Pearl Chrome detailing and chrome surrounds on the air vents (left, middle, right)
- Interior trim finishers in Fineline Anthracite fine-wood trim with Pearl Chrome highlight trim finisher; this highlight trim finisher extends to the doors, additional trims also available
- Orange or white variable Ambient light
- B-pillar illumination
- Lights package
- 2-zone automatic air conditioning with extended features

**Luxury Line exterior equipment:**
- BMW kidney grille featuring eleven exclusively designed slats with Chrome high-gloss fronts
- Front and rear bumpers with specific design elements in Chrome high-gloss
- 17” light alloy wheels Multi-spoke style 414, or alternatively 18” light alloy wheels Multi-spoke style 414; Bicolour; other wheels also available
- “Luxury Line” lettering on the side
- Trim on the side window frames and window recess finishers in Chrome, B-pillar in Black high-gloss
- Tailpipe trim in Chrome

The new BMW 330i Saloon in the optional Jatoba metallic exterior colour with the optional 18” light alloy wheels Multi-spoke style 414.

The new BMW 330i Touring in the optional Platinum Silver metallic exterior colour with the optional 18” light alloy wheels V-spoke style 698 with mixed tyres.
SPORT LINE.

Equipment

The Sport Line's dynamic appeal is underscored by the Sport leather steering wheel with red contrast stitching and the speedometer and rev counter with chronoscales and red contrasting ring. The standard sport seats with optional Black Dakota leather upholstery and Red highlights provide outstanding support.

The Sport Line can be perfectly complemented with equipment from the BMW Individual range.

**Sport Line interior equipment:**
- Door sill finishers in aluminium, with BMW lettering
- Sport seats in Corner cloth Anthracite with Red highlight, or alternatively Dakota leather Coral Red with Black highlight; additional upholstery options available
- Sport leather steering wheel with red contrast stitching, alternatively available with black stitching
- Car key with red detailing
- Instrument cluster with speedometer and revolution counter with chronoscales and unique dial design
- Air conditioning and radio control unit with Pearl Chrome detailing and chrome surrounds on the air vents (left, middle, right)
- Interior trim finishers Black high-gloss with highlight trim finishers Coral Red matt, extending to the doors; additional trims also available
- Orange or white variable Ambient light
- Lights package
- 2-zone automatic air conditioning with extended contents

**Sport Line exterior equipment:**
- BMW kidney grille featuring eight exclusively designed slats in Black high-gloss
- Front and rear bumpers with specific design elements in an Aluminium look and detailing in Black high-gloss
- 17" light alloy wheels Double-spoke style 392, or alternatively 18" light alloy wheels Double-spoke style 397* Bicolour; other wheels also available
- "Sport Line" lettering on the side
- Exterior mirror caps in body colour or alternatively in Black high-gloss
- Window guides and B-pillar in Black high-gloss
- Tailpipe trim in Black Chrome

**Standard equipment**

**Optional equipment**

*Standard on 330i xDrive, 340i xDrive, 320d, 320d xDrive and 320e Drive.*

The new BMW 340i Saloon in the optional Mediterranean Blue metallic exterior colour with the optional 18" light alloy wheels Star-spoke style 407 with mixed tyres.

The new BMW 340i Touring in the optional Melbourne Red metallic exterior colour with the optional 18" light alloy wheels Double-spoke style 397 with mixed tyres.
**M Sport package interior equipment:**
- M door sill finishers and M driver footrest
- Sport seats for driver and front passenger in Hexagon Anthracite cloth/Alcantara combination with Blue highlights and M stitching; additional upholstery options available
- M leather steering wheel with multifunction buttons
- BMW Individual headliner in Anthracite
- Instrument cluster with speedometer and revolution counter featuring red chronoscales and red contrast ring
- Air conditioning and radio control unit with chrome detailing
- Interior trim finishers Aluminium Hexagon with Blue matt or Black high-gloss highlights; this highlight extends to the doors; additional interior trims also available
- Shortened gear lever with M logo
- Driving Experience Control with additional SPORT+ mode
- Orange or white variable Ambient light
- Car key with blue detailing

**M Sport package exterior equipment:**
- M Aerodynamics package with front apron, side skirts and rear apron in Dark Shadow metallic diffuser insert
- BMW kidney grille featuring eight exclusively designed slats in Black high-gloss
- LED fog lights
- 18" M light alloy wheels Double-spoke style 400 M or 18" M light alloy wheels Double-spoke style 441 M in Ferric Grey, 19" M light alloy wheels Double-spoke style 402 M in Bicolour Ferric Grey, gloss-lathed, 19" M light alloy wheels Double-spoke style 442 M in Bicolour Orbit Grey, gloss-lathed
- M Sport suspension, alternatively Standard suspension
- Adaptive M suspension
- BMW Individual high-gloss Shadow Line, optionally satinated Aluminium
- Air intake on the sides
- Tailpipe trim in Chrome high-gloss
- Exclusive Estoril Blue metallic paint finish, other paint finishes also available

---

The M Sport package can be perfectly complemented with equipment from the BMW Individual range. Low-set suspension not available in combination with xDrive. M Sport brakes, fixed-calliper brakes in Dark Blue with the M logo and larger brake discs. This sporty and modern interior features BMW Individual extended fine-grain Merino leather in Opal White, leather-covered instrument panel, combined with the BMW Individual interior trim Piano finish Black and the M leather steering wheel.

---

The new BMW X4 in the exclusive Estoril Blue metallic exterior colour with the optional 19" M light alloy wheels Star-spoke style 403 M with mixed tyres.
THE BMW 3 SERIES SALOON WITH eDRIVE.

As a plug-in hybrid, the BMW 330e Saloon combines a 135 kW (184 hp) BMW TwinPower Turbo 4-cylinder petrol engine with an 80 kW (109 hp) electric motor for a system output of 195 kW (252 hp). Intelligent energy management coordinates all of the conventional BMW drive components with the electric motor. Depending on the battery’s charging status and the amount of power required, the electric motor can drive the vehicle by itself, or support the internal combustion engine. During coasting and braking it is even able to convert kinetic energy into electrical energy that is then fed into the high-voltage battery. Driven by electric power alone, the vehicle has a range of up to 35 km, with an all-electric top speed of 120 km/h. Combined fuel consumption is 2.1–2.4 l/100 km with CO₂ emissions of 49–55 g/km. At home, the vehicle can be recharged from a normal mains socket or, for added convenience, from a BMW i Wallbox. In addition, there are also many public charging stations.

The BMW 330e Saloon in the optional Glacier Silver metallic exterior colour with Luxury Line and 19” light alloy wheels Turbine style 415.

01 The eDrive button allows the driver to choose between three different electric drive modes: AUTO eDrive (standard), MAX eDrive or SAVE BATTERY.

02 Special door sill finishers with eDrive lettering and blue background indicate this vehicle’s highly efficient drive concept.

03 The car’s charging port for recharging the high-voltage battery from an external power source is located behind a flap on the front left side panel. A special seal protects the socket from the environment.

04 19” light alloy wheels V-spoke style 630, 7 J x 19 with 225/45 R 19 tyres.

05 The luggage compartment has a level floor, with the high-voltage lithium-ion battery tucked away below. The optional 40:20:40 split rear backrest makes for maximum flexibility.

06 In the MAX eDrive mode – the purely electric mode – the electric drive provides the maximum output.
BMW Individual
The expression of personality.

Driving a BMW is, in itself, a mark of character. There are those who still, however, want their vehicles to be even more individual reflections of their personality. The BMW Individual Collection and the BMW Individual Manufaktur meet these needs by opening up seemingly limitless opportunities for differentiation.

Precisely in tune with each model, the BMW Individual Collection offers a highly exclusive selection of equipment options. Fascinating paint finishes either refracting the light or with a matt effect. Leather, unique in colour and scope of application, perfected with clever contrasts and decorative stitching. Interior trims in the most exclusive fine woods, the immaculate Piano finish and the finest leather.

And yet even this can be surpassed – thanks to the BMW Individual Manufaktur. Here, there is only one goal realising almost any customer request, even the most personal, with stylish, hand-crafted perfection.

EXPERIENCE BMW INDIVIDUAL INTERACTIVE.
WITH THE BMW INDIVIDUAL iPAD APP.

Optional equipment

BMW Individual paint finish Champagne Quartz metallic and 19" BMW Individual light alloy wheels V-spoke 626.

BMW Individual interior trim Piano finish Black and leather-covered instrument panel.

BMW Individual extended fine-grain Merino leather in Cashmere Beige, leather-covered instrument panel and interior trim Piano finish Black.
All the lights in the LED headlights feature LED technology. They radiate a particularly bright light and consume little energy. The indicator is positioned above the light tubes.

EQUIPMENT HIGHLIGHTS.

The rear lights with their characteristic “L” shape and lighting elements in full LED technology identify the vehicle as a BMW even in the dark.

The low-set 1 Adaptive M suspension with variable damper control allows the driver to choose between comfortable or dynamic suspension settings.

Tailpipe trim in Chrome for all engine variants; Black Chrome with Sport Line. The number of tailpipes depends on the engine selected.

The comfort access system allows passengers to enter the car via the front doors and open the tailgate without having to actively use the key.

The Glass roof 2 , electrical with a slide and lift function, allows passengers to regulate the air flow rate according to their individual preference, while ensuring draught-free ventilation and a minimum of wind noise.

The Panorama glass roof 3 with electrically adjustable sunshade not only ensures that both the front and rear have an abundance of light, but also comes with a slide and lift function.

The Adaptive LED headlights and BMW Selective Beam provide significantly better illumination. The LED fog lights increase safety in bad weather.

The roof rails 3 in satinated Aluminium provide the base for a multifunctional BMW roof rack unit.

The automatic air conditioning with two-zone control includes Automatic Air Recirculation (AAR) with an active carbon filter, as well as fogging and solar sensors.

M Leather steering wheel including multifunction buttons, steering wheel rim in Walknappa leather Black, contoured thumb rests.

The electric seat adjustment makes operation easier and the memory function allows users to save their desired settings for the seat and exterior mirrors.

BMW Individual leather steering wheel, modelled on the Sport leather steering wheel, with superior-quality leather and a thicker wheel rim.

Cupholders in front of the gear lever and many other handy storage trays and compartments.

The automatic 8-speed Steptronic Sport transmission makes it all possible—from comfortable cruising to a more dynamic driving style.

The Lights package features LED lights both inside and outside the car for increased convenience and a premium look. The ambient light illuminates the interior with a combination of direct and indirect light sources.
The Lane Change Warning alerts the driver during lane changes if there is a vehicle in the driver’s blind spot or approaching on the adjacent lane, using a visual signal and vibrations of the steering wheel.

Equipment Highlights:

- **Active cruise control with Stop&Go function 1** maintains a preselected speed, as well as the distance to the driver ahead.
- **Surround View** is a visual parking aid with the camera-based functions Top View, Side View and Rear view camera.
- **The Parking assistant** makes parking parallel and perpendicular to the road easier. It does the steering while the driver remains in control of the accelerative brake and gears.
- **Front and rear Park Distance Control (PDC)** makes parking and manoeuvring in tight spaces much easier.
- **The Driving Assistant** draws the driver’s attention to an unintentional lane change or possible collision 3 and brakes automatically in the event of an emergency.
- **The full-colour BMW Head-Up Display 2** projects information relevant to the journey directly into the driver’s field of vision.
- **Navigation system Professional, incl. hands-free facility, USB interface, radio Professional with DVD player, and map updates without licence fees.**
- **Online Entertainment4** offers direct and unlimited access to millions of tracks in the BMW.
- **The DAB tuner** offers a large selection of digital radio stations, including many special-interest broadcasters, thanks to digital reception. It is also DAB+ compatible for even better reception and sound quality.
- **Enhanced telephony with extended smartphone connectivity** allows mobile phones to be connected to the vehicle via Bluetooth 5 and used with a hands-free facility.
- **Harman Kardon surround sound system with digital amplifier, vehicle-specific equalising and loudspeakers with chrome detailing.**
- **Contactless opening** 6 of the tailgate with a quick wave of the foot under the rear bumper (part of the Comfort access system).
- **The through-loading system with rear seat backrests, which are divisible in a 40/20/40 ratio, guarantees flexibility when transporting people and objects (standard on BMW 3 Series Touring).**
- **The trailer tow hitch with electronically adjustable tow ball (not visible) and stability control is capable of pulling heavy loads of up to 1,500 kg.**
- **With tinted rear and rear side windows, the sun protection glazing reduces unwanted warming of the interior.**
- **The Storage compartment package encompasses a range of practical additional compartments, along with a power socket in both the centre console in the rear and in the luggage compartment.**

---

1. Only available in combination with Electronic transmission.
2. This function can be limited by darkness and fog.
3. This function can be limited by darkness and fog.
4. Requires ConnectedDrive Services and Navigation system Professional.
5. For information on the Bluetooth compatibility of smartphones and other mobile devices please visit www.bmw.com/bluetooth.
6. The BMW 3 Series Touring also benefits from contactless closing of the tailgate.
Lockable racing bike holder made of high-strength aluminium, for secure transport of racing bikes using a quick-clamping system. A separate front wheel holder is also available.

WHEELS AND TYRES.

[01] 19" light alloy wheels Turbine style 391, R J x 18 with 225/45 R 18 tyres.
[02] 19" BMW Individual light alloy wheels V-spoke style 407 with mixed tyres, front R J x 19 with 225/40 R 18 tyres, rear 8.5 J x 18 with 255/35 R 19 tyres.
[03] 19" BMW Individual light alloy wheels V-spoke style 407 with mixed tyres, front R J x 19 with 225/40 R 18 tyres, rear 8.5 J x 19 with 255/35 R 19 tyres.
[04] 19" light alloy wheels V-spoke style 407, 7.5 J x 17 with 225/50 R 17 tyres.
[05] 19" light alloy wheels V-spoke style 391 with mixed tyres, front R J x 18 with 225/45 R 18 tyres, rear 8.5 J x 18 with 255/35 R 19 tyres.
[06] 19" light alloy wheels V-spoke style 407 with mixed tyres, front R J x 19 with 225/40 R 18 tyres, rear 8.5 J x 18 with 255/35 R 19 tyres.
[07] 19" light alloy wheels Turbine style 391, 7.5 J x 17 with 225/50 R 17 tyres.
[08] 19" light alloy wheels V-spoke style 407 with mixed tyres, front R J x 18 with 225/45 R 18 tyres, rear 8.5 J x 18 with 255/35 R 19 tyres.
[09] 19" light alloy wheels V-spoke style 407, 7.5 J x 17 with 225/50 R 17 tyres.

ORIGINAL BMW ACCESSORIES.

[01] Lockable racing bike holder made of high-strength aluminium, for secure transport of racing bikes using a quick-clamping system. A separate front wheel holder is also available.
[02] Made-to-measure protection against moisture, dirt and soot in the front footwell. The black design perfectly complements the interior.
[03] These elegant door sill finishers with illuminated BMW lettering automatically bathe the door openings into a discreet light as soon as the doors are opened.
[04] Snap-in adapter for Apple iPhone™ enables safe stowage, quick charging, music playback and cover art display.
[05] Forged 20" light alloy wheels in bi-colour matt Black, milled. Complete RDC wheel set with mixed runflat tyres, front R J x 20, rear 8.5 J x 20.
[06] Premium 20" light alloy wheels in bi-colour Orbit Grey, forged and burnished, lend the vehicle a particularly sporty appearance.
[07] Infant car seat with patented air pads for children under approx. 13 kg (approx. 10 months). To be used in combination with the separately available ISOFIX base, or with one of the safety belts.

Available for the BMW EfficientDynamics Editions and 330i, 330i xDrive, 330d, 330d xDrive, 330i and 330i xDrive.

**Colour samples**: The colour samples are meant to provide you with a first impression of the paints and materials available for your BMW. Experience has shown, however, that printed versions of paint, upholstery and interior trim colours cannot always faithfully reproduce the colour appearance of the originals. We recommend therefore that you consult your BMW dealer who will be happy to show you original samples and assist with special requests.

1. Standard with the M Sport package.
2. Also optionally available for the M Sport package.
3. Exclusively available for the M Sport package.

[Colour samples]
Please note that the interior colour and headliner depend on the selected upholstery colour.

This can be caused in particular by non-colourfast clothing.

Please note that even normal long or short-term use can lead to unrecoverable upholstery damage.

### CLOTH

#### Available with
- **Base model**
- **Sport Line**
- **Luxury Line**
- **M Sport package**

- Moss cloth

**Urban (xDrive)**: 5.8–6.6
**Extra-urban (xDrive)**: 6.9–8.4
**Combined (xDrive)**: 5.8–6.6

**CO2 emissions**: 126–151 g/km

### Fuel consumption

- Urban (xDrive): 5.8–6.6
- Extra-urban (xDrive): 6.9–8.4
- Combined (xDrive): 5.8–6.6
- Urban (driving): 5.8–6.6
- Extra-urban (driving): 6.9–8.4
- Combined (driving): 5.8–6.6

### All dimensions in the technical drawings are given in millimeters.

---

1. Torque for 330i xDrive with manual transmission and xDrive transmission 270 Nm.
2. Figures in [ ] apply to vehicles with xDrive transmission.
3. Weight with roof arierial is 1460 kgs, depending on the model. Luggage compartment capacity 495 litres.
4. All engines comply with the EU4 emissions standard. Fuel consumption is determined in accordance with the European test cycle. The fuel consumption and CO2 emissions stated for the model may exceed those figures. Fuel consumption and CO2 emissions are dependent on the selected wheel and tax band.
WELL TAKEN CARE OF WITH BMW SERVICES:

When you buy a BMW, you can look forward to superb service and comprehensive care of your vehicle. For example, the Condition Based Service* automatically notifies you to control your vehicle even in extreme situations. For further information visit

www.bmw-magazine.com

THE BMW EXPERIENCE.

BMW TV*: www.bmw.tv enables you to experience the BMW brand in all its diversity. Features, portraits and background reports provide you with information on automobiles, innovations, sports and lifestyle topics.

BMW Driviving Experience: The better you control your BMW, the more enjoyment you will derive from driving it. Use our training courses to learn for yourself what it means to reach the car’s physical limits on various types of surfaces, and what you have to do to control your vehicle even in extreme situations. For further information please visit

www.bmwdrivingexperience.com

BMW Welt: Collecting a new car at BMW Welt ranks among the best moments any driver can experience. Turn this moment into an unforgettable day, and make the handover of your new BMW part of a unique programme of activities tailored to your personal preferences. With the BMW Plant, the BMW Museum and the BMW Group Headquarters, you will be surrounded by fascinating history, a breathtaking present and spectacular visions of the future. Find out more at

www.bmw-welt.com/en

BMW Magazine: In BMW Magazine, experience the newest BMW models in front of stunning backdrops. Discover new design trends, travel destinations and the richness of modern life. Encounter people with visionary ideas who are changing the world. Find out more at

www.bmw.com/magazine

BMW FINANCIAL SERVICE.

BMW Financial Services: Take-a-make-financed BMW Financial Services offers you attractive leasing, finance and insurance packages. For further information visit

www.bmwfs.com or ask your local BMW partner to make you an individual offer.

BMW Teleservices*: With Condition Based Service, you’ll be automatically notified in the display of your next necessary service appointment. Provided you’ve consented, the most important vehicle data required for analysis will be relayed to BMW automatically. Your assigned BMW service partner will access the information and contact you free of charge to make a service appointment – if one is necessary. To access BMW Teleservices, the vehicle must be equipped with the optional Intelligent Emergency Call or ConnectedDrive Services. If necessary, the service can be deactivated at any time. For more on this topic please visit

www.bmw.com/teleservices

In 2014, the BMW Group was once again ranked the most sustainable car manufacturer in the world by the Dow Jones Sustainability Index. It is the only automotive company to have featured on the renowned index every year since its inception. The development of efficient vehicle concepts and eco-friendly production processes, up to and including recycling, is an integral part of our engineering philosophy. BMW EfficientDynamics standards have enabled us to cut the CO2 emissions of our fleet of new vehicles in Europe by more than 30% between 1995 and today. We’re also aiming to reduce the amount of resources such as water and energy used in production by 45% between 2006 and 2020. Production at our engine plant in Steyr has been water-water-free since 2007. And of course each of our vehicles is designed for easy and economical recycling after its long running life. Please contact your BMW partner on all matters regarding your end-of-life vehicle. For further information please visit our websites.
