EVEN MORE ROOM FOR PERSONAL EXPRESSION.

The interior of your BMW is, above all, a place where you can give full expression to your personal wishes and ideas. Thanks to Genuine BMW Accessories, this includes the vehicle’s interior equipment, which can be chosen to perfectly match your own lifestyle. And one principle always stays the same – get in, take your seat, and enjoy.

In focus: Travel & Comfort system

The success of this system is down to the base carrier, which is mounted between the front-seat headrest bars. It can be used as a platform for easily and securely attaching items including a folding table with a cupholder, a clothes hanger, universal hooks and holders for Apple and Samsung tablets.
This custom-fit case in high-quality Black Nappa leather reliably protects the BMW Display Key from dirt and scratches.

Whether it’s to keep you warm or simply something to cosy up to, this travel rug in beige/dark brown offers all the versatility you need. It also elegantly underscores the luxurious atmosphere in the vehicle. Made in 100% high-quality, extra-fine merino wool and with a jacquard weave.

The key case in high-quality leather is firmly attached to the key by means of an elegant steel clasp. It protects against scratches, dirt and moisture and prevents buttons from accidentally being pressed. It is available in different styles and various colour combinations, depending on model.

The precisely fitting, hard-wearing all-weather mats with their raised bordering and elegant design not only protect the footwells from damp and dirt, but also prevent feet from getting wet. They are available in black and include a high-quality chrome insert in the form of the number 7 for the BMW 7 Series.

Experience the fascinating world of motorsport with BMW Performance Accessories:

Motorsport in its most exclusive form: sophisticated materials such as carbon, Alcantara and stainless steel, plus a host of sporty and individual equipment ideas, allow you to create your own motorsport atmosphere in the cockpit. BMW M Performance Accessories also offer ultimate sportiness for the exterior, chassis and drivetrain.

BMW M PERFORMANCE ACCESSORIES.
Informed, entertained, connected: when you take your seat in your BMW, you can explore the seemingly limitess possibilities of a networked world. Genuine BMW Accessories for communication and information present a wealth of clever ideas and solutions that make this experience even more convenient and individual.

1. BMW Universal Adapter
   - An adapter for all compatible phones with a micro-USB port. Alongside charging, it also provides improved reception and secure docking. And thanks to its USB interface, it allows the playback of music stored on the phone through the BMW audio system.

2. Snap-in adapter
   - Various snap-in adapters are available for many current mobile phones. They can be used for making calls, charging, connecting to the aerial and for docking phones.
YOUR BMW – AS FLEXIBLE AS YOU ARE.

Some discoveries are hundreds of kilometres away. Others are a lot closer than you may think. Take, for instance, Genuine BMW Accessories for transport and the luggage compartment. These offer superb functionality and flexibility to make sure you always reach your destination in comfort.

In focus: BMW roof boxes

The contemporary boxes fit all BMW roof carrier systems and feature a two-sided opening system with triple central locking. Available in three sizes: 320, 350 or 460 litres and several colour combinations.
1. **Touring cycle holder, lockable**
   The lockable touring cycle holder is made from high-strength aluminium and enables the safe transport of a racing, touring or children’s bicycle or a mountain bike. Bicycles weighing up to max. 22.5 kg can be attached with an easy-to-use clamping system.

2. **Racing cycle holder, lockable**
   The lockable racing cycle holder enables the secure transport of racing bikes with the quick-release wheel system. It is made of high-strength aluminium and features a simple clamping method for attaching the bicycles.

3. **Travel set**
   This comprises a cabin-size trolley and a carry-on bag, which can be used to create extra storage space in the rear seat. The pieces of luggage can be transported individually or stacked together. They are held in place using the seatbelt and feature their own anti-theft locks.

4. **Universal rear seat protector**
   This helps to prevent soiling of the rear seat. Thanks to strategically placed recesses for safety belts and buckles, it is also the perfect accessory when travelling with dogs, for example.

5. **Luggage compartment mat, fitted**
   This custom-fit, anti-slip and durable mat with raised edging on all sides protects the luggage compartment from dirt and moisture. It comes in black and, exclusively for the BMW 7 Series, features an integrated “7” in chrome.

6. **Loading sill mat**
   The durable mat protects the loading sill during loading and unloading and the luggage compartment from scratches and dirt. It is attached using reusable velcro strips on the rear fastening points in the luggage compartment. It can also be used as an anti-slip mat in the luggage compartment.

7. **Folding box**
   The folding box, with its load capacity of up to 20 kg, is perfect for smaller items or for use as a shopping crate. It can be easily folded and unfolded thanks to Velcro strips, is slip-resistant and can be easily stored to save space when not in use. Available in black, black/red and black/beige.

8. **Universal rear seat protector**
   This helps to prevent soiling of the rear seat. Thanks to strategically placed recesses for safety belts and buckles, it is also the perfect accessory when travelling with dogs, for example.

9. **Luggage compartment mat, fitted**
   This custom-fit, anti-slip and durable mat with raised edging on all sides protects the luggage compartment from dirt and moisture. It comes in black and, exclusively for the BMW 7 Series, features an integrated “7” in chrome.

10. **Loading sill mat**
    The durable mat protects the loading sill during loading and unloading and the luggage compartment from scratches and dirt. It is attached using reusable velcro strips on the rear fastening points in the luggage compartment. It can also be used as an anti-slip mat in the luggage compartment.
